- During the 10-20 minute session, you will experience several cycles of stretch and relaxation. Most patients feel pain relief within 6-10 treatment sessions.
- DTS Spinal Decompression Therapy is a pain free alternative that has shown a very high success rate in treating neck and back pain.
- If you suffer from sciatica, pinched nerves, bulging/degenerative discs, or other spinal pain syndromes, call our office to see if you're a candidate for DTS therapy.

The gentle distractive forces of DTS creates decompression- the unloading of spinal structures- to improve blood flow and nutrient exchange to the injured area
